

All Resistors rated for 1/10 Watt
All Capacitors rated for 16V

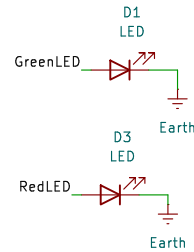

Switching Power Regulator

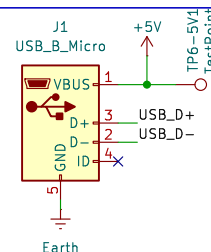

Connector Pinout
Connectors going in and out which will be connected to controller and Subsystem A3.

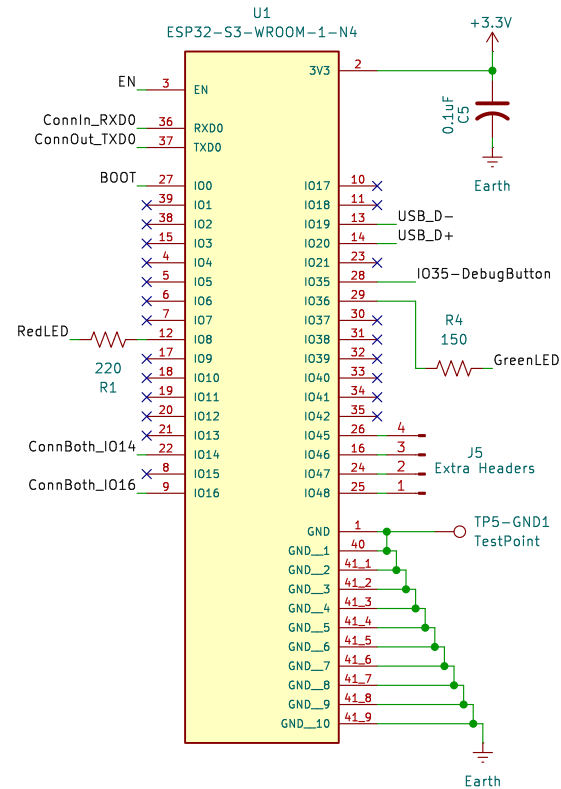

LED circuits

USB connector to ESP32

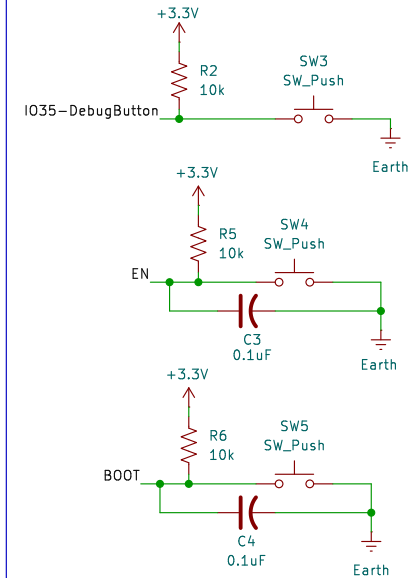

ESP Circuit and pinout
Includes all pin assignments to the ESP, as well as included some extra headers.

Button Circuit. One button is for debugging purposes and the other 2 are ... I also have buttons for Enable(RESET) and Boot.

Also depending on which button I choose, I may need to adjust resistor value to target different color channels.
