

Switching Power Regulator

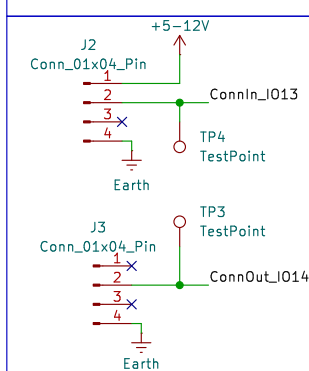

USB connector to ESP32

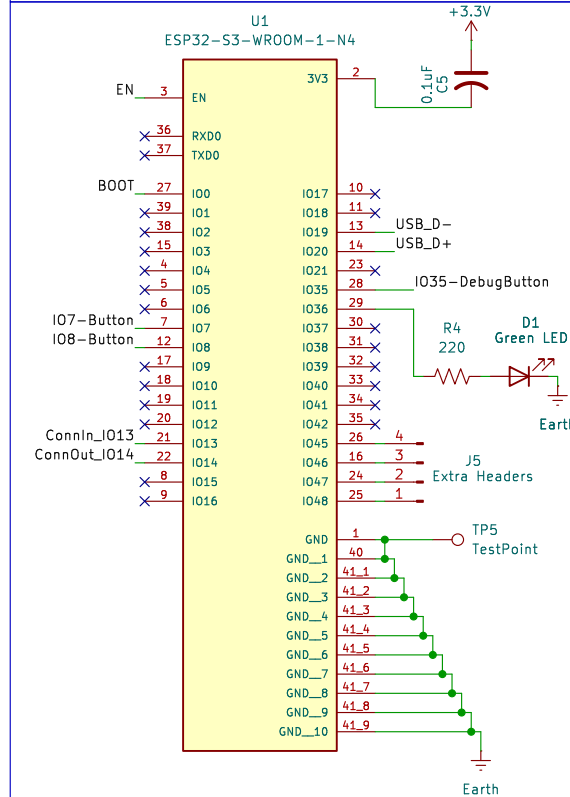

Connector Pinout

Connectors going in and out which will be connected to controller and Subsystem A3.

ESP Circuit and pinout

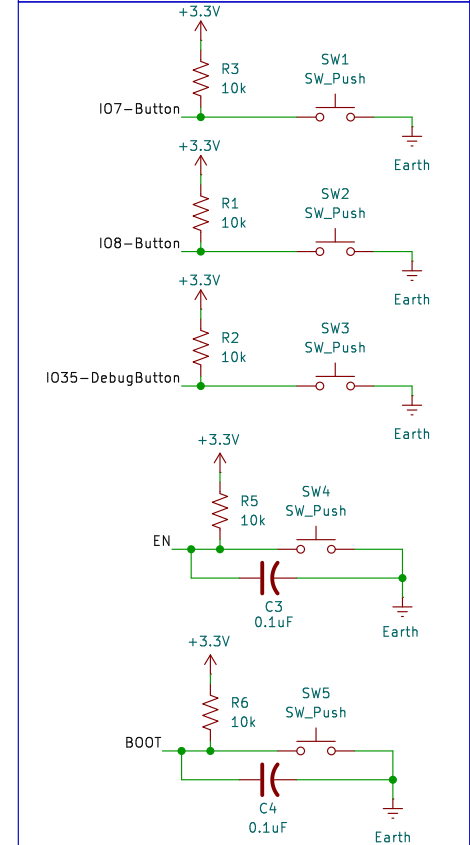

Includes all pin assignments to the ESP, as well as included some extra headers.

Button Circuit

One button is for debugging purposes and the other 2 are ... I also have buttons for Enable(RESET) and Boot.

Also depending on which button I choose, I may need to adjust resistor value to target different color channels.
